little speculative activity. The general belief favors a
partial recovery of prices during the first few days of
cort week. Notwithstanding the shipment of the unusually large sum of \$2,107,000 by the steamers which
sailed to-day, making a total shipment for the week of
\$3,044,258, the gold market was rather heavy. The
opening price was 131 a ½, followed by a decline to

Foreign exchange was firm, but the transactions were unimportant. Bankers ask 199% a 110 for their sixty days bills, and produce bills, which are quoted at 109 a %, continue extremely scarce. Of the specie shipped today the Rina took \$982,000, the America \$765,000, the Rina \$285,000 the City of Dublin \$50,000, and the Corsica \$23,000. Such an export in the times when the gold speculators held high carnival cover the varying fortunes of the war would have influenced the premium materially; but now that the rebellion is rapidly resolving itself into a thing of history, and that the neonle have reashed from a want of confidence is pie have rushed from a want of confidence is of the government to the opposite extreme of ad confidence in it, speculators have descried the arena to a great extent, and the daily fluctua-e been narrowed into fractional dimensions. The e demand for coin can now and henceforward one cause a rise in the premium; but it is easy to see at if the export of apecie to Europe continues long at the present rate that it must compel an advance by mak-g gold scarce in the open market, as well as diminish-g the supply upon which we have to rely for the means resuming specie psyments at some future day. The inport trade is on the increase—the gold value of the aports at this port for the week ending May 19 being 3,504,853, against \$2,316,458 for the provious week, the exports were valued at considerably less than half of s sum in currency. 1 ..... 216 \$76,842 288 \$93,288 The Commissioner of Internal Revenue has rendered decision in favor of taxing sales of government securiount. Hitherto they have not regarded the law in this light, and they are therefore "exercised" upon the subject. They have been in the habit of making a return of the sales on their customers' account only, thereby assuming privileges for themselves which th latter could not enjoy. The tax on sales of gold and stocks is, however, one which, in the absence of a tax on all sales, clearly inconsistent, and the cause which provoked the gold tax having died out it no longer can be resumed to serve a useful purpose. The present tax law is a mass of incongrutties, which stands in great need of re vision. Everything is taxed, and yet the revenue produced is less than might be derived from the taxation of a few leading articles of consumption. This is a matter which calls for the investigation of the Tax Commission at Washington, which we be-tieve has not yet commenced its labors, but which ought to have been done before this time, in accordance with the authority given by Congress. It does not seem to me to be necessary to take up and consider your several positions in detail, but I will endeavor, as briefly as possible, to state my views upon the question at issue.

Section ninety-nine imposes a tax upon the sales of brokers and bankers doing business as brokers. It does not undertake to define what is meant by the term "brokers." The tax is imposed upon the sales of merchandise, produce, builton, stocks, exchange, notes, &c., and, therefore, by its terms, embraces at least three classes of brokers, the distinction between whom is well understood. In ercenting the act we must seek the meaning of the term "bloker," and in se doing we should naturally look first to other parts of the same act to see if the ferm is therein defined. I am not aware that we are confined to any particular portion of the act for this; but if such definition is given, the Legislature incorporated it into that part of the law which is the most convenient, having regard to the subject matter. In the present law we find, under the several subdivisions of section soventy-nine, the term specifically defined, and the several classes aboursately distinguished, and having found the we need look no further. Congress having made the act its own interpreter, we are not at liberty to go outside of it for a definition. I cannot admit that the act is made up of several disconnected parts, independently of each other. If your first division, sections one to fifty-two, inclusive, was stricken out, all the rest must fall because there would be no organization, and no officers to execute it; and if that were to atsund, and the balance were stricken out, there would be nothing for the organization or officers to execute. THE APPROACHES DAY OF HUMILIATION AND

THE APPROACHES DAY OF HUMILIATION AND PRAYER—ACTION OF ARCHESHOF SPALDING.

[From the Baltimore Sun.]

Fresident Jobuson having issued his proclamation appointing Thursday, the list of June, as a day of national humiliation and prayer, on account of the late horrible assassination of President Lincoln, the Most Rev. Archibishop Spalding has issued a circular, in which he calls on the Catholic clergy and inky of the archibicese to respond promptly and unanimously to the call, and to enter, heart and soul, into the spirit of the day. Among the religious observances of the day, the Archibishop directs that badges of mourning to exhibited in front of all the churches, pastoral residences, convents, colleges, academic and asylums; the bells of all the churches are to be solerully toiled for half an hour before the public services, and high mass will be sung in all the parochial churches at the same hour as on Sauday. There are other minor orders in the circular, among which one to the effect that where there is no audicient choir, the Litany of the Saints, with the prayers which follow, may be resided instead of the Parce and Miscrere.

THE EPISCOPAL CHERGH IN VIRGINIA.

Bishop Johns has issued the following address to the clergy and laily of his diocese:—
The ECREGY AND LATTY OF THE DIOCESE OF VIRGINIA?—
The issue of the painful conflict through which we have passed and which leaves this commonwealth under the jurisdiction of the United States, renders very clear the course proper for us to pursue.

Obsdience to "the powers that be" "for conscience sake" is the duty of all who profess to call themselves of Christines. And as such are also enjoined to make prayer and supplication for their rulers, it is incumbent upon them to implore the blessings of Almighty field on those in nutherity over them. For this purpose the form to which we have long been accustomed is for obvious reasons most advisable. Therefore I do not besitate to recommend its use in public worship by the good people of this docese, and to express the hope that they will be true and faithful to its spirit in all their action and intercourse with their fellow c "izens—that the resumed civil relations may be happily maintained and redound to the glory of God and the temporal and spiritual welfare of the nation.

## The Greek Church In America.

TO THE EDITOR OF THE REMAIN.

Pray allow me a few words of explanation to your ricle of May 14 referring to me.

I came to this southry on the 2d of January last in the capacity of a missionary to the Sciavonians, Greeks and Russians of my faith, who have been here for many years without a church or a pastor.

I am a Cossack by birth. The readers of Byron's Ma-

seppa will know my country. Born under the Russian Scopire, and educated in Russia, I took orders as a descon in the Imperial Russian church, at Athens, in 1857. Among the free Greeks my free Gossack nature manifested itself, and I began to work in the service of free-

does and for the progress of humanity.

Eaving had a correspondence with the celebrated Inkander, editor of the radical Russian paper in London, the Boll, I wrote him a letter explaining the evil effects and had communicate of monastic life. This letter be

published in his journal of February 14, 1884, mader the two of "Pris Boutlanes Only."

From the Mane Phagan to teach the hardine which has its fundation in the Boly Gospel and its immilition; its tishen-gant bothmesten, the hardines of one of the A translation of one of my Johann on this subject to the National Assembly of Greece was published in the New York Church fournal on the 20th of last March. In this doctrine of mine the Russian Church saw dreadful heresies, tending, as they thought, to mp the Councilions of the Church.

When, in 1861, the augusten of the supposition of the

sice, tending, as they thought, to make the characteristics of the Church.

When, in 1961, the question of the commenced of the sorfs was agitated in Russia, the Episcopal establishments refused to free the serfs that they owned, alleging that they derived their right to hald serfs from the teachings of the Roly Gespoi. In another letter in the Solf I recommended the Russian elergy to place themselves at the head of the commenced to movement, and rather abow the teachings of the Gespoi by their pure and blameless lives. Subaganeauly the government compelled the enfranchisement of these jopiscopal seris.

Still working for the progress of humanity, I so longer could remain a humble servant to autooracy, and, leaving the Russian service, I remained at Athens as a free ofti-

On the 25th of February, 1502, I received ordination as a priest from Bishop Melitius, of Constantineple, without the benediction of the Crar, which a accessary to make valid orders in the Russian Church. After living there is the ministry, and hearing of the state of my faith here, I came to America as a missionary, bringing isters of recommendation from the Prior and Council of the monastery of Mount Pentelicus, near Athona, countersined and approved by the Metropolitan of Athens, and having size oredentials to the Protestat Episcopal Church of America, I come to this country without any of the superstition of the old world, tolching pure ancient Christianity.

The priests of the Russian Eact, when in this country, had permission accorded them by Bishop Potter to hold divine service in any church of his diocese. This they were prevented by their superiors from accepting, who looked on Bishop Potter as upon any other hereite. I accepted the courtesy of the Bishop, knowing that he was notusted by the spirit of Christ. I colebrated the Liturgy in Trinty chanel without images, pictures, senseless prayers or other idolatrous oustons.

I printed in the Evening Post of March 27, 1865, a form of confession taken from the ancient risual of the Church. This made the Russian Church angry, as the confession which they use toads to a up system and to domoralization. Monarchies do not like to see progress.

The Russian government has sent instructions to

confession which they use tends to a spy system and to domoralization. Monarchies do not like to see progress.

The Russian government has sent instructions to oppose energetically my free propagands. They offer to buy a church for the Greeks—for there are on Russian subjects in New York—to pay all the expenses of the church, and to send a priced from Russia who will work in the spirit of the Russian Ghurch for which Church there appeared a very good explanation in the Ruszan of May 14). This is all on condition that the Greeks do not receive instruction or hear sermons from Father Agapus and have no communication with him.

At a secret meeting hold by the Greeks in this city, on Thursday, they agreed to accept the proposals of the Russian government. They will thus have a regular church, with priest and dreeses, images, &c., and all expenses paid.

They loave Father Agapus in the lurch, who had come over at their carnest solicitation, and whom they now repudiate.

The poor Russian nation sadly need schools. Yaurs, very respectfully, AGAPIUS (HONCHARENKO), Orthodox Eastern Church.
